AtliQ Café

AtliQ Café - Core Team

Monday

Ritu - Manager

Sachin “ Write it down, so the team stops having this conversation ”

10:00

Two weeks in. The same thing went wrong three times.

Day 3	Day 8	Day 11
Active customer	**Average bill**	**Growth**
3 teams , 3 meanings	₹ 285 and ₹ 205	- 5.6 % and + 22.7%

Today’s question

For a single metric, what are the minimum fields your definition needs? List them.

Bonus question

Which field do people forget most often?

AtliQ Café

My Answer

“ A metric is only reliable when its definition is written down. ”

1 Metric name	**2** Business question	**3** Formula	**4** Inclusion & Exclusion
5 Time window	**6** Comparison	**7** Source	**8** Owner

Example: Employee attendance (May) = includes WFO + WFH,
excludes paid leave and sick leave

“ If it is not written down, it gets defined multiple ways. ”

Bonus Answer

“ The field people forget: inclusion & exclusion (filter). ”

AtliQ Technologies: Virtual Internship

May Attendance = Days present / working days

Sheet A

- ✓ WFO
- ✓ WFH
- ✗ Paid leave
- ✗ Sick leave

Matches requirement

Sheet B

- ✓ WFO
- ✓ WFH
- ✓ Paid leave
- ✓ Sick leave

Breaks requirement

It feels obvious, so nobody writes it down. Everyone assumes their own filter is the standard one.

The formula looks identical on paper. The filters are what change the number.

Day 14 lesson

Before you share a number, write down what it counts and what it leaves out
