Sameer - Regional Manager (BLR)
Online

Today

Sachin "Send me a comparison of my 11 stores so I can decide which one to invest in next quarter."

8:30

Today's question

Six days of habits. Which ones does this request trip, and what do you do before you open a tool?

Bonus question

Bonus: one word in Sameer's message decides the entire shape of your answer. Find it.

AttiQ Café

My Answer

“ Ask, before open the tools ”

The Metric is undefined

"Comparison" names no number. Sales, growth, and margin can each rank differently.

Ask what “Better” mean

Investing in what, a refit or a new outlet? And is the target revenue growth or margin?

Only then Rank the 11 stores

The right question costs one message. The wrong metric costs a rebuild

My Answer

“ One word turns a comparison into a decision ”

The Word

“ INVEST ”

He is allocating capital

Comparison shows data.
Recommendation shows the decision

He didn't ask for a scoreboard of 11 stores. He asked to decide. That's what "invest" forces: an answer that ends in one pick, not eleven rows.

Day 7 lesson

Find the goal before you build.
