AtliQ Café

AtliQ Café - Core Team

Ritu - Manager
Sachin “Need ops report by Monday.” 9:00

Arjun - CFO
Sachin “Need Monthly finance pack by Wednesday. ” 9:01

Kavya - Marketing
Sachin “Need Campaign analysis by Thursday. ” 9:01

Sameer - RM (BLR)
Sachin “Need Store scorecard rebuild by Friday. ” 9:01

My week

Mon	Tue	Wed	Thu	Fri

8 days of work (4 requests x 2 days each work)

vs

5 days available

Today’s question

You cannot do all four. What exactly do you say, and to whom?

Bonus question

One of these four is not really a new request. Which, and why does that matter?

My Answer

“ Take all four requests to the person who decides. ”

Why Ritu first?

She is my manager. Setting priority is her call, not mine.

The other three requests

Give each person a clear date. Ask for a little more time.

“ Make the workload visible. Let the manager decide. ”

Bonus Answer

“ Ritu’s request is not new. It is already in my day-to-day work. ”

Already in my week

Ritu’s Monday ops report

Every week
2 days

New asks

3 requests x 2 days = 6 days

Arjun
2 days

Kavya
2 days

Sameer
2 days

2 days: ops report

remaining 3 days: free to work

3 free days. 6 days needed. 3 days short.

Day 27 lesson

“ You are not saying no to the work.
You are making someone choose what comes first. ”
